Scrum Product Owner Certification

A Product Owner is the team member responsible for product delivery. They serve as a liaison between stakeholders and the Scrum Team and own/manage the backlog. The Scrum Product Owner Certification (SPOC™) is a course for leaders who may already be Product Owners and want to

it is used effectively across disciplines and industries.

There are no formal prerequisites for this certification. However, it is preferable to complete the Scrum Developer Certified (SDC™) or Scrum Master Certified (SMC™) course offered by SCRUMStudy.

learn how to apply agile practices to their role.

This course is not just for technology experts. While Scrum is popular in the IT industry and within IT teams,

SCRUMstudy
