

## ICP-ACC Agile Coaching Certification

### DESCRIPTION

The ICP-ACC is one of two Continuous Learning Certifications (CLCs) on the Agile Coaching and Facilitation track. The certification focuses primarily on the mindset, roles, and responsibilities of an Agile Coach. After finishing the certification, the learner will be able to differentiate between and among mentoring, facilitating, consulting, teaching and coaching, and will also gain the skills needed to create a safe environment for meaningful collaboration and healthy conflict resolution within an agile team. This certification introduces participants to team development concepts around starting and growing teams while paying particular attention to team dynamics and the surrounding organizational system. A key part of this certification focuses on developing an understanding of the Professional Coaching skillset and the value of honing these skills to serve individuals on an agile team.

### TARGET AUDIENCE

Agile team leaders or aspiring team leaders with a passion for servant leadership and a desire to learn and practice coaching. Relevant roles include Project Managers, Scrum Masters, Iteration Managers, Agile Coaches and aspiring coaches, Product Owners, analysts, and anyone with the desire to harness the power of coaching.

### ASSESSMENT

No assessment for this course as it is foundational.

### TRAINING LOCATIONS

We can conduct training sessions for our customers at their premises or host them at our main offices in McLean, VA.
