Scrum Master Certification

The Scrum Master Certified (SMC™) course is for those professionals who have a working knowledge of Scrum that equips them to implement Scrum practices. This course is not just for technology experts. While Scrum is popular in the IT industry and within IT teams, it is used effectively across disciplines and industries.

Scrum team.
There are no formal prerequisites for this certification. However, it is preferable to have completed the Scrum Developer Certified (SDC™) course offered by SCRUMStudy.
